## Kleurenkaart voor interieur Transparant

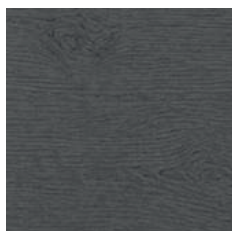

Hout is op zijn mooist bij een transparante behandeling. U kunt transparante kleuren gebruiken om de natuurlijke kleur van hout te accentueren, het te verlichten of een gekleurd oppervlak te creëren dat past bij uw interieur. Transparante kleuren zijn fantastisch voor meubels, deuren en vloeren, evenals muren en plafonds - elk oppervlak in uw huis. Zelfs te gebruiken in sauna's, doucheruimten en kleedkamers.
